

Quality Agricultural Machinery

## Description

Khedut Reversible MB Plough is used for cultivation of stubble & fallow soil, loosen of soil, breaking of soil, turning of soil and making of seed bed. The plough has special wear - resistant steel bottoms with points for toughest ploughing jobs. It has a hydraulic turnover mechanism.

## Technical Specification

Variant	KARMBP 02			KARMBP 03
Frame (mm)	75 x 25 Flat Bar Frame			
Tines (mm)	80 x 36			
Mould Board (mm)	8			
Working Depth (mm)	250 - 350			
Working Width (mm)	630			950
Turnover Mechanism	Hydraulic			
Mounted CAT	CAT II			
Weight (Kg)	250	350	450	650
Tractor Power (HP)	45 - 55		75 - 125
